## Professional Summary

I'm a junior developer with 2 years of experience in web and software development. Proficient in JavaScript, TypeScript, React, Next.js, SQL, MongoDB with a proven ability to rapidly acquire new skills and adapt to new technologies. Successful in contributing to team projects while developing and implementing software solutions as a Software Developer, leveraging and utilizing my frontend expertise, optimizing code efficiency, and enhancing application functionality. With proficiency to act in different product scopes at the same time, handling crossovers and maintaining flow compatibility, I'm currently seeking a role to apply my technical skills and contribute to frontend technologies.

---

## Skills

- Javascript – Advanced Knowledge
- Angular – Advanced Knowledge
- Typescript – Medium Knowledge
- ReactJs – Medium Knowledge
- Git -Advanced Knowledge
- RxJS -Medium Knowledge
- NgRx -Medium Knowledge
- MongoDB – Advanced Knowledge
- MySql – Advanced Knowledge
- C# - Medium Knowledge
- .Net – Medium knowledge

## Professional Experience

**Junior Developer** Cytech Consult Limited  
[August, 2022] – Present

- Collaborate with senior developers to design and implement web applications using JavaScript and React while learning simultaneously.
- Handling the frontend development, ensuring a seamless and responsive user interface.
- Assist in debugging and optimizing code to improve application performance and user experience.
- Participate in code reviews and contribute to maintaining high coding standards and best practices.
- Rapidly learn new technologies and methodologies to stay current with industry trends and enhance development skills.
- Support the development team in project planning, documentation, and testing phases.
- Engage in continuous learning and professional development through mentorship and hands-on projects.

---

## Professional Experience

**Computer Science – Bachelor Degree**  
Unique Open University, [Sango, Ogun State]

Aug 2021- Feb 2025

Programming Fundamentals, Computer Architecture, Operating Systems, Database Management, Software Engineering, Object Oriented Programming (OOP) and Data structure, Web Development, Internet of Things (IoT), Mobile Application

---

## Projects

### School Website

- Developed a fully responsive school website using HTML, CSS, JavaScript, and React. The platform included features like student registration, course enrollment, and an interactive dashboard for teachers and administrators to manage student data.

### E-commerce Platform

- Built a practical e-commerce platform using HTML, CSS, JavaScript, React integrating payment processing and user authentication.

### Law Firm Web App

- Developed a comprehensive web application for a law firm using HTML, CSS, Bootstrap, JavaScript, React, Node.js, Postman and MongoDB. Assisted in implementing client management and document handling features to streamline operations.

## **Logistics Web App**

- Created a logistics website to track packages in real-time, using HTML, CSS, JavaScript, React, and MongoDB. Integrated tracking ID features to provide accurate and up-to-date information on package locations, improving transparency and efficiency in logistics operations.

## **NGO Web App**

- Development of a web application for an NGO using HTML, CSS, JavaScript, and React. Designing and implementing features to facilitate donations, volunteer registration, and information dissemination.
- 

## **Volunteer/ Working Experience**

**Cytech Consult Limited** [August, 2022] – Present
